yazılnow

Find a free time with Baku's barbers and salons — and book it in one tap.

THE PROBLEM

In Baku, booking a haircut still means a DM — and a wait.

6 / 10

salons take bookings through WhatsApp, Instagram DMs or phone calls.

Our field check of 37 top-rated Baku salons (Google reviews, Instagram), Oct 2026

0

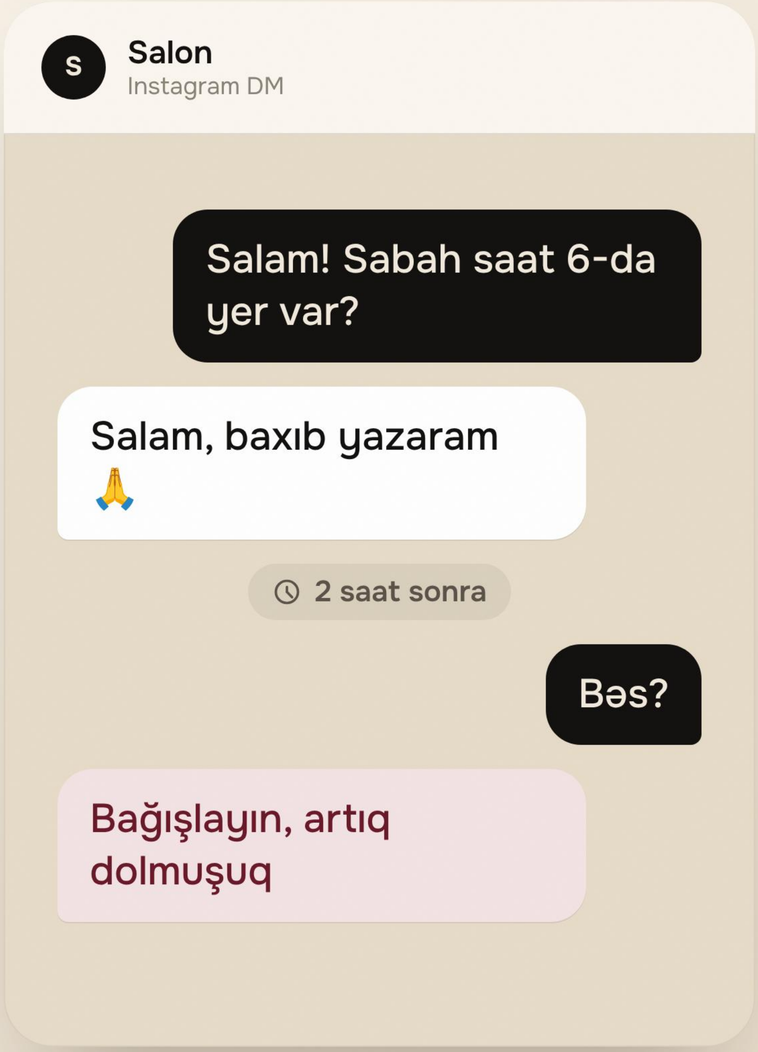

apps show free times across the whole city. Salon tools like DIKIDI or Rezneed each show one salon.

Competitor review: DIKIDI, Arnica, Rezneed, Altegio, YCLIENTS, Fresha, Booksy

20%

of a new client’s bill goes to Fresha. Booksy adds $20 a month for every extra master.

Fresha pricing (CostBench), Booksy pricing (Koalendar)

OUR SOLUTION

Every free time in the city, on one map.

FOR CLIENTS

Live free times across Baku

PRODUCT · FOR SALONS

A salon panel, not a CRM to learn.

- Calendar, walk-ins and time off
- Masters and services — no per-seat fees
- One-time QR codes for reviews
- Statistics and a monthly click report
- Branches and manager roles (Pro)
- Deposits and a waitlist (Pro)

Runs in the app and in any browser.

BETA TEST

5 people used it on our test server.

Anonymous. Three clients, one salon owner, one barber.

> “I saw three free times at once instead of messaging three salons.”

TESTER 1 · CLIENT

> “Comparing prices side by side made the choice quick. I’d like more photos of the work.”

TESTER 2 · CLIENT

> “Adding masters and hours took a few minutes. I want reminders to go out on WhatsApp.”

TESTER 3 · SALON OWNER

> “The QR review is easy — clients did it before leaving the chair.”

TESTER 4 · BARBER

> “Booking in Azerbaijani felt natural. The reminder before the visit helped.”

TESTER 5 · CLIENT

MARKET

Baku’s salons have tools for themselves. Clients have nothing.

WHERE

Baku first — about 2.3 million people · State Statistics Committee of Azerbaijan

SALONS

Barbershops, hair and beauty salons, nail and brow studios, spa, makeup

CLIENTS

People who book by DM today, and visitors who need English and clear prices

The market already moved booking online — into messengers. The client side is still empty.
